Re: SCP Carlstadt

Please be advised that the Technical Committee has recommended, and the Steering Committee has confirmed the selection of Dames & Moore to write the Work Plan at SCP Carlstadt, provided Inmar refuses to undertake the drafting and implementation of the Work Plan.

The Steering Committee desires to know what progress the EPA has made in obtaining the cooperation of Inmar, and other owner/operators. Regarding the latter, the Committee understands that the EPA has undertaken a title search that may lead to the identify of other owner/operators. Can the Committee assume that the EPA will issue Section 104 letters to those newly discovered owner operators.

Very truly yours,

FOR THE STEERING COMMITTEE
